5K+ bought in past month

The screenshot displays the Eclipse IDE interface. On the left, the Package Explorer shows a project named 'selenium_project' with a sub-project 'Assisated_project'. The 'Assisated_project' contains several Java files, including 'TestNMobilePage.java'. The main editor window shows the code for 'TestNMobilePage.java'. The code is a Selenium test script that imports various Java and Selenium classes, defines a 'TestNMobilePage' class with a static 'driver' field, and implements a 'takescreenshot_method' and a 'main' method. The 'main' method sets up a ChromeDriver, navigates to 'https://www.amazon.in/', and prints the text of a mobile link.

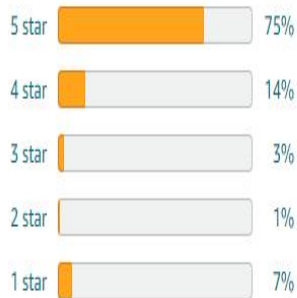

```
1 package Assisated_project;
2 import java.io.File;
3 import java.io.IOException;
4 import java.util.ArrayList;
5 import org.apache.commons.io.FileUtils;
6 import org.openqa.selenium.By;
7 import org.openqa.selenium.OutputType;
8 import org.openqa.selenium.TakesScreenshot;
9 import org.openqa.selenium.WebDriver;
10 import org.openqa.selenium.WebElement;
11 import org.openqa.selenium.chrome.ChromeDriver;
12 import org.openqa.selenium.interactions.Actions;
13 public class TestNMobilePage {
14     public static WebDriver driver;
15
16     public static void takescreenshot_method(String filepath) throws IOException
17     {
18         File srcFile = ((TakesScreenshot)driver).getScreenshotAs(OutputType.FILE);
19         File destFile = new File(filepath);
20         FileUtils.copyFile(srcFile, destFile);
21     }
22     public static void main(String[] args) throws InterruptedException, IOException {
23         // TODO Auto-generated method stub
24
25         driver = new ChromeDriver();
26         driver.manage().window().maximize();
27         driver.manage().deleteAllCookies();
28
29         driver.get("https://www.amazon.in/");
30
31         Thread.sleep(2000);
32
33         WebElement mobilelink = driver.findElement(By.LinkText("Mobiles"));
34
35         String text = mobilelink.getText();
36
37         System.out.println(text);
38
39     }
```
